PROFESSIONAL SUMMARY

Front-end developer with a strong foundation in HTML5, CSS3, and JavaScript, focused on building responsive, user-friendly web interfaces. Experienced in translating designs into clean, functional UI. Quick learner with strong problem-solving skills, eager to contribute front-end solutions in a professional environment.

TECHNICAL SKILLS

- Front-End Development: HTML5 (Proficient), CSS3, JavaScript (Learning), Responsive Web Design
- Tools & Platforms: VS Code, Git, GitHub
- Soft Skills: Analytical Problem Solving, Technical Communication, Adaptability

EXPERIENCE

Software Engineering Intern | KodNest

- Gained hands-on experience in front-end technologies while contributing to real-world projects under the guidance of industry professionals.
- Collaborated with team members to apply front-end development skills to functional project deliverables.

PROJECTS

Weather Updates Application

- Built a responsive, web-based application to display real-time weather information.
- Integrated third-party APIs to fetch and dynamically display live weather data.
- Designed a clean, user-friendly UI focused on readability and ease of use.

AI-Based Facial Recognition System for Access Control

- Developed a facial recognition system to detect and authenticate users in restricted areas using Python, OpenCV, Dlib, FaceNet, Flask, and SQLite.
- Implemented an alert mechanism to flag unauthorized access attempts.
- Improved security by enabling real-time monitoring and automated alerts.
